

**Chipping  
Tool**

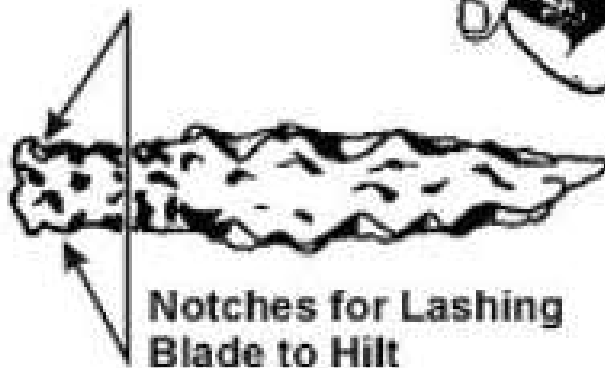

- 1 Shape blade. Strike glancing blows near edge to get edge thin enough to sharpen.

**Sharp-Edged Piece of Stone  
Shaped Like a Knife Blade**

- 2 Sharpen blade. Press downward with flaking tool at stone edge or push flaking tool along edge.

**Flaking  
Tool**

**Notches for Lashing  
Blade to Hilt**

**Blade Lashed to  
Hilt (Hardwood, Antler)**
